Opgave 130

$$\begin{aligned}
 0 &= \pi \cdot D \\
 &= \pi \cdot 25.3 \quad \text{indsæt tal} \\
 &= 79.5
 \end{aligned}$$

$$b = \frac{0}{360} \cdot v$$

$$\frac{b}{\frac{0}{360}} = v \quad \text{Divider med } \frac{0}{360}$$

$$\frac{b \cdot 360}{0} = v$$

$$v = \frac{56.7 \cdot 360}{79.5} \quad \text{indsæt tal}$$

$$v = \frac{20412}{79.5} \quad \text{Gange}$$

$$v = 256.8^\circ \quad \text{brøk}$$
