Opgave 006

006

$$b + s + x + x + v + v = 360$$

$a = x$
 $c = v$
 $b = s$

$$b + b + a + a + c + c = 360$$

$$2s + 2a + 2c = 360$$

$$2(b + a + c) = 360 \quad | :2$$

$$b + a + c = 180$$
