Opgave 427

$$v = 254$$

$$l = 9$$

$$x = l \cdot \cos(v)$$

$$x = 9 \cdot \cos(254) \approx -2,480736$$

$$y = l \cdot \sin(v)$$

$$y = 9 \cdot \sin(254) \approx -8,651355$$

$$P_{slut} = (x, y)$$

$$P_{slut} = (-2.48, -8.65)$$
