Opgave 026

$$W = \frac{1}{6} \cdot b \cdot h^2$$

$$b \times 4 = 0$$

$$b \times 5 = 0$$

$$6 \cdot 6 \cdot b =$$

$$\frac{100500 + Vardler}{b} = \frac{100.000 \cdot 6}{100^2}$$

$$Simplificer$$

$$b = \frac{600.000}{10000}$$

$$Divider$$

$$b = 60 mm$$
